

DENVER SOUTH TRANSPORTATION MANAGEMENT ASSOCIATION

WAYS FOR EMPLOYERS TO ENGAGE

Denver South's Transportation Management Association (TMA) works with current and prospective employers and employees and a breadth of **free services to evaluate, educate and encourage** commute behaviors beyond single-occupancy vehicles. Some of the modes we promote through our TMA are more sustainable options such as transit, telework/hybrid-work, cycling, carpool/vanpool, compressed work-weeks or walking. There are multiple ways to engage with the Denver South TMA!

ON SITE TRANSPORTATION FAIRS LET US COME TO YOU!

- Denver South hosts compelling, on-site transportation fairs - at no-cost - to promote and provide education on sustainable commute options for employees.
- Denver South will identify relevant transportation vendors, including our partners at DRCOG, RTD, CDOT's Bustang, Enterprise Vanpool, Bicycle Colorado and Lyft, to engage with staff on their services.
- Employee attendance incentives include a limited number of free transit passes (when available) for those interested in trying a new commute mode, along with fun vendors and healthy living experts.

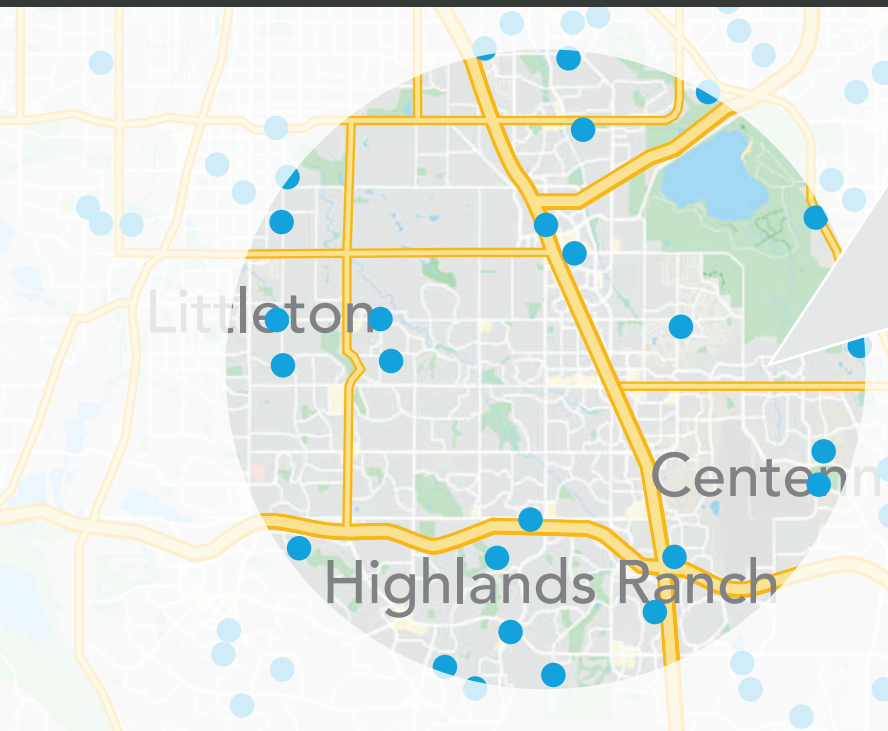

TRANSPORTATION SITE ANALYSIS

Denver South can conduct a free Site Analysis Transportation Report for employers in the region providing:

- Valuable transportation data, including employee commute distance, and environmental and financial commute costs
- Realistic sustainable commute option alternatives
- Accurate pricing estimates for RTD's EcoPass

DRCOG'S WAY TO GO / CARPOOL / VANPOOL MATCHING MAP

Not knowing who lives nearby is one of the biggest obstacles to forming new carpools or vanpools. We can work with your organization's HR department, to provide maps identifying potential carpool/vanpool matches. Then, we do the work for you, creating pre-written communication and hosting lunch-n-learns to bring these potential carpools together, with free food and presentations provided by Denver South and Enterprise Vanpool!
